DanceBots Workshop - 1.5 day

Inspiring STEM* & Robotics for School Kids

Life Science Cares Switzerland (LSCS), together with you, as our partner, is organizing together with **mint & pepper DanceBots workshops**: a hands-on STEM* experience at school, combining **science, technology, engineering, arts, and mathematics**.

The workshop empowers young people, especially those from disadvantaged backgrounds, to explore robotics, creativity, and problem-solving and letting them experience how they can achieve much more than what they thought possible.

*Science, Technology, Engineering, and Mathematics

DanceBots Workshop - 1.5 day

How you can engage as a corporate partner

- Provide suitable workshop rooms (if the course takes place at your company's premises)
- Involve 2–3 employees as volunteer co-facilitators during the workshop. No preparation / experience is required.
- Organize, facilitate a 30-minute company tour (if at your company)
- Sponsor and organize lunch, snacks and beverages for approximately 20 people – tbd if workshop takes place at school
